

# MILWAUKEE

Wisconsin Area Health Education Center

## Haley Sanchez

MAHEC Community Health Worker Project Coordinator

March 2021 - Present

---

### What are some of your memorable moments with Milwaukee AHEC?

“Milwaukee AHEC strives to make a difference within the communities of Wisconsin for those who are underprivileged and underrepresented while also allowing a space of opportunity to future professionals to create and partake in an outreach to the underprivileged and underrepresented communities.

The MAHEC team is receptive to new ideas to make sure the service that is being provided is effective, efficient and equitable. For that, I am thankful to have had an opportunity in a practicum experience with MAHEC to complete my Masters of Public Health degree and now an even greater opportunity to be a staff member on the team.”
